Portfolio: iq4u8.vercel.app

PROFESSIONAL SUMMARY

Versatile professional combining a strong B.Com foundation with self-taught technical capabilities. Highly skilled in leveraging advanced AI agents and Prompt Engineering to rapidly prototype, develop, and troubleshoot software applications without traditional coding. Proven ability to independently resolve complex hardware/software IT issues. Adept at bridging the gap between business requirements (accounting, GST, operations) and technology solutions. Seeking a role where rapid adaptability, AI proficiency, and business acumen can drive operational efficiency and product development.

CORE SKILLS

AI & Prompt Engineering: Advanced Prompting, AI Agent Workflows, No-Code App Dev, Code Troubleshooting.

IT & Technical Support: Hardware Troubleshooting, OS Diagnostics, HTML/CSS Basics, Cybersecurity Basics.

Business & Operations: Tally ERP 9, MS Excel / Power BI, GST & Taxation, Bank Reconciliation, Data Entry & MIS.

Soft Skills: Self-Directed Learner, Problem Solving, Adaptability, Communication.

PROFESSIONAL EXPERIENCE & PROJECTS

SOS Phonebook

June 2026 - Aug 2026

Built an offline-first smart directory for Indian emergency numbers. Implemented the local database architecture and search algorithms using AI assistance.

Keywords: *Offline Architecture, Database Planning, App Development*

Smart Bank Reconciliation App

May 2026 - July 2026

Developed a client-side web utility that ingests Cash Book and Bank Statement CSVs to automatically detect, compare, and highlight mismatched financial entries.

Keywords: *Accounting Automation, CSV Parsing, JavaScript Logic, Financial Data*

Tally Data Visualizer Dashboard

Apr 2026 - June 2026

Architected an interactive dashboard utilizing Chart.js to transform raw Tally ERP 9 export data into visual metrics for sales, expenses, and profitability.

Keywords: *Data Analytics, Chart.js, Business Intelligence, Data Visualization*

Automated GST & Invoice Validator

Mar 2026 - May 2026

Built a smart validation tool that cross-verifies invoice calculations, SGST/CGST rules, and compliance parameters instantly using algorithmic checks.

Keywords: *GST Compliance, Tax Automation, Logic Verification, FinTech*

Messages

Feb 2026 - Apr 2026

Prototyped a fully on-device, isolated messaging application focusing on zero data collection and encryption principles.

Keywords: *Data Privacy, Application Logic, Security Concepts*

AI Calculator

Feb 2026 - Mar 2026

Designed an intelligent educational calculator that computes results and displays a step-by-step breakdown of the mathematical process.

Keywords: *Educational Tech, AI Logic, Problem Solving, Algorithm Design*

CERTIFICATIONS

Google Data Analytics Professional — Coursera

Google Cybersecurity Professional — Coursera

Meta Database Engineer — Coursera

Tally ERP 9 & Advanced Excel — STP Ed.

Diploma in Web Dev — STP Ed.

EDUCATION

Bachelor of Commerce 2024 | GPA 4.0/4.0
A.C.S. College, Navapur (Grade: A)
